Mr. CR James,

I recently purchased your info and after one week **I can see big improvements** in how my wife and I are with each other. It remains to be seen when things will change for good. I have a few questions that I need help with. Are you available through this email or is this simply for what we think of your literature?

The help you have given me is immeasurable. I knew that what you are saying was inside of me all along, but you have helped bring it out.

“You will single-handedly help me turn my marriage around!”

Mr. CR James,

I sent a message to the "opinions@ etc...", but I just saw this email address and decided to write to it. I have a question or two and I have questions come up when I am reading your material. I have found what you have to say is to the **utmost truth** and I can now say that **I am a totally new person thanks to you!** You will single-handedly help me turn my marriage around! If you will email me back I would appreciate it.

There are a few more things that will help me advance even further. Thank you for all you have done and I look forward to hearing from you.

Subject: I NEED MORE HELP!!

Hey...

I have read through a lot of your stuff and I think it is very solid and it is the **most intelligent and balanced and logical advice I have read so far.**

I need some further clarification from you though because I am having a real tough time. I just got out of a relationship because it lost its flair mainly because I was too much of a **PUSSY** and when I realized it I became too much of a **DICKHEAD**. I followed it up with the same formula right after with the next relationship. At the end of your main book you start to directly address a balance act under your section about MFM + GF = [?????]. I am hoping you can elaborate a little further for me. Basically If your formula were a ride it would be a straight line right in the **sweet spot** in a perfect location. The way I seem to be is more like a rollercoaster that is too shocking or mean or too nice and only ends up in the **sweet spot** by accident from time to time.

Women reveals why she is craving a “good one”

Hi James,

Thanks for giving me the time.

It is a new relationship. ..7months. At first the attraction was his principles. I had come out of a relationship where my man was unfaithful to me (even though the **sex was the greatest ever!!** He has this idea that God has given him this gift to **satisfy women** and so he must! he is a natural to all that you are talking about)

(Increase Your SEXUAL VALUE and make women Crave Sex Like Crazy

Anyway the attraction with this other was that I felt for once I did not have to keep tracking him.

He is Italian and struggles with English. Some times I think he is stupid! The attraction is wearing thin. He does not stimulate me mentally! He can have **erections after erections** immediately one after another (ok I admit that was an attraction too but the point is I feel angry with him and don't want to have sex with him although **I am craving for a good one!** Then I think about my ex! I want this relationship to work because Mr Italian loves me to bits and he is a good man.

What is the point of being with an exciting person who is going to let me down? Society has changed and it is difficult to build a future with someone on shaky foundations.

I have tried helping Mr Italian by telling him about the things you discuss but..... argh!!!!
(maybe we could translate your works into Italian)

Now he does not try to have sex with me because he respects me too much! But it scares me that **my body is screaming for sex** but not with him! I want this to change..... don't I? Or maybe I should not play it so safe and take the risk of being hurt yet again? I am 43 and still very attractive and look like a 30 (lucky me) but I want to settle and have a child. Time is running out. I am at the moment even thinking of being unfaithful!!(disgusted with myself)

I am prepared to hang in here if he is able to regain his sexual value.
HELP!

cheers

"The moment she came home from work she actually tackled me on the couch!"

Hello First let me start out with a compliment , Man you really know your stuff and the easy to follow simple terms , **the way you write is unbeatable**. I used simple techniques first I did a little something I sent her a text message telling her ["a technique in SSP"]

I also told her [something else that works like a charm]

That day I sent the text I also told her ["one of CR's favorite things to say to a woman"]. The moment she came home from work **she actually tackled me on the couch!**

So I said hi as I always do with a hug and a kiss. So I'm sitting on the couch and she puts her feet on me I looked at her with wide eyes and said ["something else"]. So she grabs me and I can tell how she kisses me that she's trying to entice me to go upstairs well I said hey I gotta bail and run

(Increase Your SEXUAL VALUE and make women Crave Sex Like Crazy

home to take a shower cause we were going to see a concert.

She said oh ok.

So I waited a few minutes and went upstairs with some bullshit excuse and **she was in her panties putting lotion on**. So she grabs me throws me on the bed I kissed for a minute or two and said listen I'll be back l8tr she said oh ok. Like a little girl who lost her pet..LOL so I leave come back l8tr and she's asleep on the bed.

ATTENTION competition....so I did [something], grabbed her hand then let go. She grabs mine and I let go. She kisses me on the cheek.I said [a one syllable word] and **it drove her nuts!**

We get home and she is hugging me [so that I can kiss her] I know she was waiting for me so I just [did something powerful]... and she grabs me and just starts kissing me.

I [kept building the sexual tension] for about an hour, DUDE don't know [exactly what was going on] but I wasn't touching her anywhere but her back, her hair, her thighs. I didn't touch the sweet spot!

And out of nowhere **she scoots her panties over to side** and tries to make her own penetration! [after that] it was on!

NEXT TIME I'M DOING **THE FISH FILTER thing** [a "fan-favorite" technique found in the ebook Lust Signals].. LOL

You are the GOD of seduction!

Steve PS BY the way I don't catch Poison IVY.. LMAO

Subject: Re: Here is your new customers-only report

Hey CR,

Thanks for the great essay on **smiley face**!! I'm about 1/2 way through it and can see how it can not only be fun, but like you say, **powerful**. I remember that girls like fun things too. I might [use it] for the women at work! Maybe eventually women I don't usually talk to will come up to me and want to [do something “magical”] that would be crazy. More in line with your essay though, yeah, I can so see how it can be used to **increase my sexual value**.

I have a quick question, I'm sure it's an easy one for you. There seems to be, with the advent of the "working woman" you know, many more girls my age (25-30) that are quite business oriented, always well dressed, which is a plus I think, and seemingly very independent. You know the type,

(Increase Your SEXUAL VALUE and make women Crave Sex Like Crazy

they're not dull and austere, just more shielded it seems. Like, what is the key thing or approach that sets one guy apart from the hundreds of others that she sees every day?

It just popped into my mind, that my dance teacher's husband, who teaches too, uses [something similar to the smile face technique] with his students... which is second nature in him now, and really makes his students **feel great**. I know because I see it and have had several lessons with him myself, and he just makes you want to do great!

“There are so many manuals out there that tell you or reveal how to lay girls I’ve tried most of them without avail...”

Hello James,

> Am on a holiday at my sisters in the middle east and hence have not yet registered for your course, have been frequenting my mail and have been receiving your reports and I must say in all honesty **they are very much insightful** and directing me to a new way of thinking to sound plain without exaggeration. There are so many manuals out there that tell you or reveal how to lay girls etc etc and to be honest i've tried most of them without avail...

“I make her crave it until she is begging.”

Hello CR, wanted to write an email. As you already know I have told you many times before **your system works** and it works well, **It's like magic**. Short story well sort of so sit back and deal with it. All kidding aside I have used your methods recently with **great success**, I have personally emailed CR asking him how to handle the girlfriend that THINKS she wants to date again. Well CR I did exactly as you suggested.

(Increase Your SEXUAL VALUE and make women Crave Sex Like Crazy

She never brought it up but I did. Longer story shorter, well most cases she would call me ask me to come over and spend the night, so she started with the testing method by saying [something] can't explain what's going on I'll put it in email, I said listen if you think you need to date go ahead and date maybe we'll both find other interests that are better for us, maybe this relationship isn't for me, maybe us isn't for you. Well this 1 night I didn't confirm nor deny I was going out with the guys I was actually just tired she called and text me about 4 times thinking something was wrong with our relationship, I have no problems having sex with her because **I use your methods and create that sexual tension** not the minute were in bed but all day...

I [do something powerful] and she gets to the point where she tries to get me to [have] sex... I

make her crave it until she is begging.

Anyway I use this technique the same way I do when we are out or hanging out at home I make her crave me I give her a little than take away create excitement. Well CR she has 3 female roommates 3 now you know I use this to my advantage without it being obvious because only a fool would flirt with his girlfriends roommates but I still do little things like eye contact, confidence, compassion and being funny with every 1 of her roommates. Women can sense competition, women feel and know if her friends are drawn to a guy or not She knows her friends think I'm an outgoing confident guy with a personality. But most important CR I learned to be a man who thinks in his mind he has great sexual value I don't do shit to please her I do shit to please myself. We were all supposed to go to a concert Thursday well my girlfriend can't make it so she said I can't go do you wanna go? Knowing quite well she's not about to have her boyfriend go to a concert with 3 of her girls who think he's a great catch, So I said yea I'm still going, guess what CR she found a way to go. Jealousy can work to your advantage as long as she doesn't get crazy. I also told her I don't NEED another needy woman I want a woman to want me. Plenty of needy woman in this world and I had my fair share already. It's not what I said it's how I said it I told her what I want without being a prick or to pushy. Laid back and mellow. Well thanks hard to explain so GUY GOTTA **GET THE DAMN EBOOKS** READ THEM AND TRY THEM. THE DESIRE TO BE SUCCESSFUL AND WIN WITH WOMEN IS NEVER ENOUGH EVERY GUY WANTS TO WIN AND **BE SUCCESSFUL** WITH WOMEN IT'S THOSE OF US THAT LEARN, LISTEN AND PRACTICE TO BE SUCCESSFUL THAT ACTUALLY SUCCEED.

ps NOT ONE OF THESE WOMAN MENAING HER ROOMATES EVER TALKS ABOUT SEX IN FRONT OF ME. WELL MAYBE HOW THEY DONT GET IT BUT NEVER MENTION SEX WIHT ANOTHR GUY. GREAT I KNOW.

thanks

man

Guys learns a trick to take a “proactive role”

Hi CR

I think the major thing in terms of getting more positive responses has been discovering who I am again and being pretty bloody happy about what I've found. As a result it's definitely a case now of [doing something powerful]

I think there's probably not much I'm doing that's extra special - I have used just about all your basic ideas in some way (yet to really explore the mind state ideas further and the stuff from your Lust Signals reports (which was **unreal**, but need to re-read it all)

One thing I have consciously done, and worked to develop the habit of [doing something powerful]...

I try to do this while they are still showing lots of interest.. then to come back This seems to give them more incentive to **take on a proactive role**, which then means I can get a bit more nonchalant about the whole process - that then seems to kick them up another notch in terms of their interest.

anyway, thanks again
didn't get the smiley face tech report, but def interested

“In the past 2 weeks since I have read your book I can tell a big difference in myself and the way I act...”

CR,

A complete turn-around of personality is not the easiest thing to accomplish; much like trying to quit smoking cold turkey. In the past 2 weeks since I have read your

(Increase Your SEXUAL VALUE and make women Crave Sex Like Crazy

book I can tell a **big difference in myself** and the way I act. However, at certain times I can tell myself slipping slightly back to my old personality. This is nothing major, but the second after an "old personality trait" comes out, I quickly make a mental note of it and focus on not letting it happen again.

I have reread your book 2 or 3 times now and I use it as a reference when I need reminding of **proper ways to change**. Now, as YOU were going through your transformation I'm sure that at least once you found yourself going back to your old "geeky" self (I think that's how you referred to it in your book).

Question: What did you focus on when you had moments like this? Anything specific?

You didn't have this book to reference back to at times. At times I'll just walk into the house and mentally [do something powerful]".

I can't tell you how much I appreciate your feedback!

“I know I have a ways to go... I am the EH guy”

Hi CR,

I have read half of this ebook and already **my mouth is dropping open** just because everything I have been doing and done with my significant and obviously past relationships was wrong and obviously unsuccessful.

I realized that I am an EH. I read that list of traits within the EH profile and it was me to a T almost. I grew up with 4 sisters and a mom and have always related to women well except in boyfriend girlfriend situations and any relationships I have had they've always ended sort of quickly or before they really get started. I am then left in the dust and they generally move onto their next "jerk" and in some cases they return to me to cut my guts out and complain about the loser they just dated.

The pain of that sort of situation caused me to stop that scenario from happening again.

I understand now the concept of my own Sexual Value and I have begun working on improving it just by stating the **simple scripts you provided**. I know I have a ways to go but I am the EH guy. I think it has a lot to do with my upbringing and I always saw the crap my sisters and female friends went through with the guys they dated and I never wanted to be like those guys. Anyway enough about that for now.

(Increase Your SEXUAL VALUE and make women Crave Sex Like Crazy

I don't know if you answer questions in the sense of Dear Abby, I'm pretty sure it is not your main focus but if I may impose, I wanted to ask specifically about the switching from friends to something more scenario. I am in a relationship right now that is friends but we have almost gone over the line of friendship on one occasion and this woman has told me before on a couple occasions that I do have everything she would want in a man but something is missing. I believe after reading a lot of the information I purchased that it is basically she sees me as a friend and not in a sexual context. The one time we stepped out of the friend zone it was a little awkward and that was my fault because I was shocked at that point and anxious and it was really just an extended make out session that was a great surprise but I was not fully prepared for either. We both not completely relaxed either. Anyway, **I know I need to increase my sexual value** to get her to see me in that context. I know your program will help me do that.

Thank you
again! Brad

“A woman - without her, man is nothing.”

First let me tell you that I really enjoy your emails. Although I'm happily married now for 11.5 years, I've always been intrigued by the **dynamics of attraction** and repulsion so I read on. Also, I like to keep up with new ideas and keep hubby interested and challenged. I found your site by accident while looking for info for a friend who was trying to get his new GF to dump him (a bit wishy washy, he hates to be the one to end it and watching his relationships in their deathrows can be agonizing.)

Anyway, I read your SUE report and this is a sick sick sick situation. It's almost like she's a character from a soft porn romance novel; though I know there are women out there like that because I have friends who have dated them. I guess it is a good example because it's so over the top.

Of course there are people out there who are not looking for loving relationships, people who are addicted to the trauma/drama. Who say 'oh, but he/she LOVES me' (or meets some other need) and think this is enough to allow them to be abusive.

There are people who are so addicted to the abuse that they draw out the hidden/suppressed sadist in even the most mild-mannered and gentle/loving people. This type of masochist may be extremely controlling themselves and is projecting **their inner sadist onto an unsuspecting lover**.

Often they are only drawn to people who are truly abusive, controlling, and sadistic. But your obvious point was that her husband (for a few paragraphs I thought she was maybe divorced from him) was not part of her world, was not doing his part to rock her world and make the neighbor's jealous. He was not picking up on **what his wife was craving** and at least **'roll-playing'** the rouge to keep her attention. Poor guy probably thinks if he is nicer she will eventually respond to him, or is equally in denial that he is still married in any meaningful way at all.

Also illustrates beautifully how some people are attracted by the very behaviors they claim to be hurt by. Sue seems as if she can only be happy with someone's boot pressing into her neck.

She lays down in front of a door and writes "Welcome" on her stomach.

Perceptions go so much further. Look at a pencil. From the side, it is a line, from the end, it is a pink rubber circle, from the point it is 2 concentric circles, this is just a pencil, how much more complex is an interaction between 2 human hearts.

"A woman without her man is nothing." A woman without her man, is nothing A woman - without her, man is nothing.

(Increase Your SEXUAL VALUE and make women Crave Sex Like Crazy

If our language is so imprecise that 7 words in the same order can have opposing meanings, how much more so complex issues of the heart. If you choose to perceive every slight and insensitivity as a 'punishment' for something you did that was 'bad', if you imagine nefarious

motives for even acts of kindness, then you are your masochist's own sadist. If your lover tells you that you are beautiful and you choose to interpret this as saying that you are dim-witted, then you are choosing to abuse yourself. How does the dynamic of the story change if when he said that she was beautiful, and with a flip of her hair and the wink of her eye she laughed and smiling, purred back, "and brilliant too" landing a bit wet one just under his ear. Had he responded that he loved her for her intelligence, she would have surely interpreted this as him saying that she was unattractive.

But you have a point when you speak with her, if she is unhappy, she is free to leave. When he is dragging her through a crowd she is free to drop his hand, walk away, and leave. Go to a movie, take a taxi or bus home, etc. She chooses to be with this person. Not that there are no true psychopaths who would hunt down an ex-lover, or people who find themselves legally bound to spiritual vampires, but Nobody can treat you like a doormat if you don't lay in front of a door.

Likewise for him, dating a woman who thinks you are an awful boyfriend is also a form of masochism. Often women find they can control their men by setting unrealistic standards for romance, support, chivalry, etc. and then rubbing their noses in it when they fall short. This can also be abusive and degrading to someone's self esteem. It works both ways. People seek out and are attracted to what they feel in their deepest soul that they deserve. If you feel you really deserve someone who is wonderfully loving and a great mate in almost every way, then you will find one. If you feel that you do not deserve to be loved and cherished but abused and emotionally brutalized, then you can find that too. Often in the same person.

Sue is a great example. She also (if she is a real person) needs a really good therapist.

Thank you again for your newsletter and a really great example.

“After [doing an SSP technique] for the evening she surprised me with some driving distraction”

I hadn't seen anything from you for a while so I decided to send a status report along with a request for your advice. I purchased your book a while

back and have read it clear though and am working on my second time through for a more in depth study. I've had some successes and failures with increasing my wife's interest level.

SUCCESSSES

My most recent successes were this last weekend. My wife and I have started dating more and this past Friday we went out for another great evening out.

After [doing an SSP technique] for the evening she surprised me

(Increase Your SEXUAL VALUE and make women Crave Sex Like Crazy

with some driving distraction (hasn't happened since before we were married) before getting home and continuing with a great evening in bed. Saturday I took the kids to my folks house and returned home in the

<http://CRJamesTestimonials.com>

<http://SuperPowerMedia.com>

evening in time to go to our periodic trip to the local dinner theatre. I continued in my real man role including [doing the tips in SSP]. When we got home, I thought that even though she is seldom ready for sex two nights in a row, I'd give it a try. After working for a while to get her in the mood.... I started to step things up a bit.

She immediately stated that her "interest level was pretty low right now". I told her "that's ok, my interest level is low now too." With that, I immediately [did something powerful]. In less than a minute, she is rubbing me and trying to **increase my interest level!**

We soon were at it and ended with her **having a great [vaginal]-orgasm** (which are infrequent but happening more).

Also, have you issued any new reports lately? Thank you for your time and help

“So far your book is enlightening...”

Dear CR James,

Yesterday I downloaded the 163 page booklet and I am going through it now.

So far your book is **enlightening**, as I, despite having success with women over many years did and still do not know, exactly how the buttons get pushed and how to **[get women horny]**. I believe that the information will be revealing, I see almost everyday, how guys blow themselves up, trying to over analyse or compliment a female, but your descriptive prose is so far enlightening, I have almost read it in its entirety and wanted to see the extras as well.

Waaassaaap... hehe,

How've you been? No offense on ya memory but I'm the fella who was working to get his ex back... I figure you're a busy bee and prolly forgot exactly who I was...

Well I have made much progress and yet still find new angles as I study ur books over and over..

In terms of the ex we have made progress as friends and a portion of that has been flirtatious.. She wants to see me on thursday and I'm thinking of putting the breaks on her by giving her a not so easy time and pushing some lust buttons hehe.. I'm patient but its been 2 yrs since we've had any physical contact and I believe she might be boiling for some affection from me.. or so it seems.

I have slain 3 other women and I've met a 4th older woman who wants **casual sex** and wants to take me on her motorcycle for some fun this saturday, plus she's professional and has doe and likes to share it she says hehe... lets see how that goes.. I let go of my perfect picture of my ex getting back with me unmarked like some nice movie.. I know shit happens and maybe its really over but this time I see how I'm the prize and how shes losing out... well on my way to work so I'll fill you in with more soon..

CR James to Scott

hey scott..

cool story... she's talking about relationships - you're the man!

some guys never do anything after that read the books that they have paid for.. .they're actually scared of women (yes, women???) as if she is a 700 foot cobra with death venom!!!

keep me updated. i never get tired of reading emails from guys who actually take action...

take care my friend...

“I won’t be surprised if centuries or even decades from now your information is required reading...”

CR,

Reading over most of your reports, I am understanding better a huge problem in my marriage. You see, for some odd reason I have no problem making other women fall for me (which I have often done unintentionally) simply because when I see a woman I like, I engage with her and I absorb myself into her and into our conversation. The minute her eyes start to widen up, and her body language shifts, I know she is attracted to me. My wife has complained that I have a bunch of girl-friends (girls who are just friends but who I would be **repeatedly screwing** were I not married) and not enough guy-friends. Anyway, the problem is that my "bond" with my wife is based more on similar belief systems rather than a real attraction.

...

but we are married with two children and do not wish to go through a divorce.

Reading your material, I have been able to **increase my SV [sexual value] points** in some areas,

however, there is still the huge issue of her not feeling attractive. Having just read your **LUST SIGNALS** reports, I realize [something powerful]

(Increase Your SEXUAL VALUE and make women Crave Sex Like Crazy

...

Your information is truly king.

I won’t be surprised if centuries or even decades from now **your information is required reading** for those in the:

Marriage/Counseling/Behaviorial Psychology fields.

Seriously. Your graciously,

Trini

“I even made this girl cum, in under a minute, while she was still wearing her trousers!”

Well you definitely have some worthwhile information to teach. I can see parallels with some of the really good stuff in the seduction community, but your stuff if you pardon my language **cuts out all the shit and explains things just as they should be explained**. I am really enjoying reading the book. It "makes sense" with how I understand things already.. .but reminds you to apply it if you know what I mean, and also further ingrains it in the reader's knowledge. I came out of a relationship a few months back and as I am reading through the book my thoughts are like "oh yeah that happened. ..and that.. .and that!"

It's freaky, but I can actually identify that, in the beginning of my last relationship I was acting in many of the ways instructed by you, and **getting mind blowing sex**,

I even made this girl cum, in under a minute, while she was still wearing her trousers!

She had a look of disbelief on her face just before her **orgasm** as she felt herself just about to cum.

As we grew closer, of course I let my guard down and fell into other behaviours (the wrong ones...as described in your book), and the same girl who couldn't keep her hands off me (even in public) would now not let me near her. Of course, I made the mistake of - "what's wrong" etc etc.. .you know the score.

It's a learning process though, and it's amazing how the whole thing can actually be explained in a linear fashion. **Well done you've done a sterling job**.

I've bought books like "[?????]" "[?????]" "[?????]" and you're right all of them have the same information but it was written different. It wasn't well written and have examples and **step-by-step guides** to help like your book did.

His Three Day Seduction Diary

Here's my story for those who don't believe this works.

I never wrote a testimonial till now!

I'm single and was looking at seduction methods hoping to improve my chances of meeting more women as well as getting more sex. When you are 39 it doesn't happen often. I decided to try your methods on my next date. I only read the course once and was really HALF ASS applying your methods.

Date 1: I laid some easy ground work.

Date 2: She's more than interested she wants some but I decided to build more points just a little more to see what happens, well by....

Date 3: I was EMBARRASSED as we were in public.

She was all over me!

(Increase Your SEXUAL VALUE and make women Crave Sex Like Crazy

...so much so that we had to leave 20 minutes into the date back to my place of course, once in the door **she's on the couch NAKED** and well you can guess the rest.

If I had video of **this hot blonde** basically **trying to have sex in a public place** ...you would swear it was staged...

That's how crazy she was for me. I just wanted to say thank you CR James as **it's been a long time since any woman has wanted me that bad...**

and **getting her so hot that she initiated everything** was great for the both of us. I'm gonna reread the course and study it more this time.

It's almost scary but in a good way.

BEST MONEY I EVER SPENT !!!!

Thank you, Jay

thanks for the kind words john!

i have to give you a testimonial "you are the man!" and I say that seriously because not every guy takes action like you did...

i just got finished reading a email from this guy (2 seconds ago!) that wanted me to prove to him that it works... he wanted me to email him a bunch of advice (spending my valuable time) concerning getting sexual value and if it worked, he "promised" to buy. ..lol

i told him he doesn't have to buy. and it doesn't really matter to me whether he buys or not. .lol i

guess he wanted me to "perform" - as if I'm a juggler in the subway or something.

that's the reason why i had to give you a testimonial. and i was serious about it -b/c you (and others like you) basically landed on the site -> bought the book -> read it -> tried it -> and got results...

as a matter of fact, i'm going to attach a free copy of some new stuff i'm working on.. no one has ever seen it.. not even my beta testers!!!

good luck...

keep me updated..

“I am the master of pulling girls”

Hey bro thanks heaps for everything so far. My brother told me about this book and I have found it amazing! I only read it yesterday and haven't tried anything yet.

I'll give you a brief rundown on my situation.. I am engaged and have been since Nov last year. It was a bit rushed but I truly thought she was the one...

I still do but things definitely have to change..
I have never been with a girl that I truly cared about before..

I have **slept with about 100 girls before** and more often than not had a few going at the same time.. so maybe because I didn't really care about any one in particular they all were keen?

My bro told me to read this book [Super Sex Power: Magnetism] cause he thinks I am the master of pulling girls and wanted to know what I think. After reading this book I realise that I am a lot of the undesirable things and explains why my girl is no longer **horny** for me.

I have been living in a fairytale!

but I never bullshit myself and I can see that you are the light!

I always want to **be honest with myself** and I have felt incredibly insecure with her. I have thought that she has been cheating on me and have been anxious when she is away from me. I used to be her MFM and with GF became her SSM and actually got together with her when she had another boyfriend..

Thank You
mate! Benj

Super Lust Buttons Customer feels ripped off

Hi CR.

I really enjoyed your take on sexual value. It's simple, understandable, and **makes perfect sense**. I'm using some of your suggestions to increase my sexual value.

Thanks for the help.

Hi CR,

You ripped me off and I want my money back..... just kidding!

Actually I find your work brilliant. In my conversation with two girls {just above average beauties} I could see them squirm with tension while fishing for answers.

The way the second girl answered me I could tell she was a virgin. These girls actually liked me talking to them. Compared to "[????]", and "[?????]" which made me lose my way, **your strategy is concrete**. Those books taught me a few things **but nothing that could naturally close the deal like Super Lust Buttons**.

[Side Note: This happy customer is comparing Super Lust Buttons (a little report that I wrote in a few hours) to other people's complete courses. Also note: I used to give it away for free because I thought it would save time when 'guys in the dating field' would ask me for advice] I don't even [do a common deadly mistake] because now I know better. I read the entire four PDFs in one sitting. I know you have some other books so I'll check out supperhappysex.com soon. The confidence explanation was superb. I finally get what those other books were trying to say but couldn't match discourse with SLB. Super Lust Buttons is short [only 29 pages] however and I wonder what I should do to increase my sexual value after the first conversation when {not if} I get the date with **the girl of my dreams**.

But like I said I'll check out your other books because you made a believer out of me. Money well spent.

Peace,
Earl.

Thanks I will take advantage of it. You are a genius.

Side Note #2: If a guy hasn't read Super Lust Buttons which only cost \$17 bucks (which has a mail-in-form so he doesn't have to use his credit card if he skeptical), then I don't know what to say to him. LOL.

I feel I've received excellent value for the money I spent

Hi CR,

Thanks for the new reports. I feel I've received **excellent value for the money** I spent.

I've read SSP, the Levels of Communication and Super Lust Buttons. Once thru, just to familiarize myself. I'm on my way out the door to buy a couple notebooks to organize everything, so when I print it all out, I can seriously **study the material**.

All I can say is...criminy. Without going into a lot of detail now (I will later when I get the results I want to get), all I can say is I'm basically starting OVER with my wife. If it's possible, I think I worked things so that I have NEGATIVE sexual value. I got a LOT of work to do. But do it I will.

Thanks again for the support. G

“...it becomes almost too easy to believe”

cool. i don't think you have anything to worry about... it only gets better...

seems you are definitely doing a good job of executing the tactics.. yea a lot of people like the smiley face...if you keep getting better at it, **it becomes almost too easy to believe**, but some guys tend to screw it up in the beginning by not paying attention to her 'responses' and her 'willingness' ...

have fun...

“I like the playfulness of having her beg for sex.”

Yea. The funny thing is that it is coming out in my favor. She dresses more like a wife than a mom now. For Mother's day she dressed relaxed and let me take the lead in the restaurant.

I did ease up and I spent a few days being supportive. When the kids where out of the house this weekend, I [did something effective] and then made the move in the kitchen.

She was especially willing and giving.

After the fact, she respects me and my space more. Although at the time of the ??? technique she was furious. I believe she is **more receptive** to me because of the technique. In a flash of inspiration, I [did something powerful] to *her*.

(Increase Your SEXUAL VALUE and make women Crave Sex Like Crazy

My wife has always prided herself on being hard to get and being above the cut. Since the kids, its been increasingly difficult for me to initiate sex. I like the idea of the ????? and the ?????? of the smiley face technique. I think this is the future.

She sees herself as the one with the goods and doesn't want to appear cheap. I've had some success suggesting that she has to tell me what she wants and she seems open to this.

I like the playfulness of having her beg for sex.

The ???-based techniques have done wonders **breaking down her resistance** to sex. She is a very proud woman. I can see she is trying to do a really good job for me and is enjoying herself. I can only hope that **I can stay confident** and continue to eliminate anti-seductive behaviours so that our intimacy and connection can continue to increase.

“I just grabbed her and shagged her and she didn’t complain a bit.”

To crjames

Lol I know u must receive thousands of emails a day and 500 of them say what I just said but I had to send one in. I just purchased your books and am reading through them.

It’s 2 in the morning and i got to get up at 6 lol but I want to keep reading because **your books make so much SENSE** about every thing like (i’ve only just started reading so leave me alone) confidence and it making u stand taller without any thought and the sexual force.

example all i could think about was shagging me misses while she was

(Increase Your SEXUAL VALUE and make women Crave Sex Like Crazy

bissy talking to me about her holiday and in the end i just grabbed her and shagged her and she didn’t complain a bit when normally she likes to wait, and the happy thing and just feeling positive. My relationship just had a rook and we hung in by a thread but we been getting alone like a house on fire but i wanted to know more so i got this and there so much that’s true. when I feel good before people have even talked to me at a checkout (female)they are more talk-a-tiv, and well I need to stand up 4 myself a bit more by the sounds of it lol.

At the start I was having trouble working out what u were saying but u keep using examples and it just clicks and I cant wait to c the effects it will do with my relation ship and life in general. I’m starting it now lol Thank u and I mean it. my relation ship has always been a bit woobly for me but I’m confident it will work and if it doesn’t then I’m not doing it

right and will have to read your books harder. cause i got that special girl that i like the company of not just the hole between her legs and i don’t want to almost lose her again. cheers

Sorry didn’t know whether to send it to this one or ur other one so i send it to this one

“My wife comes to me for sex!”

Thank you. It is still working.

My wife comes to me for sex!

Two weeks in a row **she has sucked me off** and **then cum with my fingers up her ass**. She likes it and expresses pride in her new found abilities.

We still fight and I count it as a love/hate swing and do my best to ride it out. She is very controlling and I just do my best (somedays better than others).

...

I spent dozens of hours going through your ebook, taking notes. It is still vague in my mind, but I think I have the landscape and can fumble my way through, like walking in in the dark.

It is relief to not have to worry about sex and instead build opportunity and state of mind. There is a lot of preparation and it does build the fantastic connection. I'm less likely to be antiseductive even when her behavior towards me compels me to do something stupid. It's almost like the work spent on building opportunity and state of mind has exhausted me so that I can let it go by me without comment as I don't have the energy. I feel like she is racking up solid points on me, but when she takes me to bed I'm winning the war. She seems to be totally aware of what I'm after (sex), and she never misses an opportunity to slam me.

I saw a youth protection video on helping children cope with adult seduction techniques and guilty guy is freaking out and I remind myself my wife and I are adults. She shows me every Oprah show or newscast with sex offenders and I prevail with happy thoughts and good intentions and build sexual tension.

Before I read your material, I let her know that she is the only one for me. And predictably, my relationship with her went down hill. It is as you said, "THERE IS A GAME AND YOU HAVE TO PLAY." Now I don't say those anti-seductive things and look for ways to be her MMF and give her connection by recognizing her with super compliments. I still have a long way to go in my goal to give her **super happy sex** until she has fucked herself silly, and now I feel I have the materials to work out the roadmap.

I have work to do.”**

Hey CR,

Thanks for the response. Thanks for the smiley thing too. Reading that a little before I wrote this. Makes sense. I know again, I have been way too persistent with this one and others.

Thank you again this information is great! I have work to do.

Thanks again CR

Brad

Warmly,
